Centre County Commissioners  
Willowbank Building  
420 Holmes Street  
Belleville, Pennsylvania 16823

Dear Commissioners:

Please help make crime stop.

I have conducted a sting operation on the Centre County District Attorney's Office that has finally implicated the District Attorney Stacy Parks Miller and now all of her assistant district attorneys. I have enclosed three private criminal complaints, submitted to the Centre County District Attorney's Office, which have been completely ignored by said Office, **complaints which should provide the basis for proceeding upon prosecution by a special prosecutor.**

Criminal complaints are a useful tool for maintaining compliance through our government actors. Our county people are afraid that attempting to use such a tool will not work. I had sought to prove otherwise.

Because this cancer has spread unto the entire District Attorney's office, I am giving you the option to spearhead this prosecution. I have also notified the Attorney General so that he may seek supersession, a member of the Pa. House of Representatives so that he may seek impeachment, and the Governor so that he may seek removal in due course. My letters to these officers are also enclosed. Any of these methods should prove worthy, but I presume that you would prefer to keep this work to our local area.

Sincerely,
